

USEM_SIM

Simulation-based Medical Emergency Ultrasound

2nd Edition

September, 2021 to June, 2022

Hospital da Luz Learning Health - Centro de Formação, Investigação e Inovação

Program

The 10 modular live sessions take place between 09h00 and 19h00 (with one-hour lunch break), with a duration of 9 hours each module, in a total of 90 hours live.

In case of a change of epidemiological scenario, the dates may change according to new indications from Portuguese Health Direction.

2021

Module 1 | **17th September**
General principles of ultrasonography

Module 2 | **15th October**
Echocardiography in urgency - Part 1

Module 3 | **19th November**
Echocardiography in urgency - Part 2

Module 4 | **17th December**
Eco-guided procedures - Part 1

2022

Module 5 | **21st January**
Eco-guided procedures - Part 2

Module 6 | **18th February**
Thoracic ultrasound

Module 7 | **18th March**
**Ecographic evaluation of patients in
shock at emergency**

Module 8 | **8th April**
Abdominal ultrasound in the emergency

Module 9 | **6th May**
**Venous ecodoppler of inferior limbs in
urgency**

Module 10 | **3rd June**
Ultrasound in abdominal trauma
