DATC™ - Definitive Anaesthesia Trauma Care

The **Definitive Anaesthesia Trauma Care (DATC™)** course is developed under the auspices of the **International Association for Trauma Surgery and Intensive Care (IATSIC)**.

The DATC is an intensive course comprising lectures, interactive case discussions and trauma management simulation, designed to teach qualified Anaesthesiologists and advanced Anaesthesia Residents strategic thinking and decision-making in the management of the severely injured trauma patients. The DATC shares lectures with the DSTC course for surgeons improving teamwork and communication in the management of trauma patients. The lectures will be presented in English or in Portuguese.

This course will be limited to 10 participants. There will be a **mandatory** webinar (DATC candidates only).

DATC selection criteria include:

Specialists in Anaesthesiology or Residents of 5th, 4th and 3rd year of Anaesthesiology that have previously attended ATLS or similar courses.

Normal Course Fee *

575 €
